**Distinctive Badges.**—An announcement was made at the Coronation Durbar in 1911, that a distinctive badge should be granted to present holders and future recipients of the titles of 'Diwan Bahadur', 'Sardar Bahadur', 'Khan Bahadur', 'Raj Bahadur', 'Rao Bahadur', 'Khan Sahib', 'Raj Sahib' and 'Rao Sahib'. Subsequently the following regulations in respect of these decorations were issued—(1) The decoration to be worn by the holders of the titles above mentioned shall be a badge or medallion bearing the King's effigy crowned and the name of the title, both to be executed on a plaque or shield surrounded by a five-pointed star surmounted by the Imperial Crown, the plaque or shield being of silver gilt for the titles of Diwan, Sardar, Khan, Raj and Rao Bahadur, and of silver for the titles of Khan, Raj, and Rao Sahib. (2) The badge shall be worn suspended round the neck by a ribbon of one inch and a half in width, which for the titles of Diwan and Sardar Bahadur shall be light blue with a dark blue border, for

the titles of Khan, Raj and Rao Bahadur light red with a dark red border, and for the titles of Khan, Raj and Rao Sahib dark blue with light blue border.

A Press Note issued in November, 1914, states—The Government of India have recently had under consideration the question of the position in which miniatures of Indian titles should be worn, and have decided that they should be worn on the left breast fastened by a brooch, and not suspended round the neck by a ribbon as prescribed in the case of the badge itself. When the miniatures are worn in conjunction with other decorations, they should be placed immediately after the Kaiser Hind Medal.

**Indian Distinguished Service Medal.**—This medal was instituted on June 28th, 1907, by an Army Order published in Simla as a reward for both commissioned and non commissioned officers of the regular and other forces in India. It bears on the obverse the bust of King Edward VII and on the reverse a laurel wreath encircling the words For Distinguished Service. The medal, 1½ inches in diameter, is ordered to be worn immediately to the right of all war medals suspended by a red ribbon 1½ in wide, with blue edges ½ in wide. This medal may be conferred by the Viceroy of India.

**Indian Order of Merit.**—This reward of valour was instituted by the H. E. I. Co in 1837, to reward personal bravery without any reference to length of service or good conduct. It is divided into three classes and is awarded to native officers and men for distinguished conduct in the field. On the advancement from one class to another the star is surrendered to the Government, and the superior class substituted, but in the event of the death of the recipient his relatives retain the decoration. The order carries with it an increase of one-third in the pay of the recipient, and in the event of his death the allowance is continued to his widow for three years. The First Class consists of a star of eight points, 1½ in in diameter, having in the centre a ground of dark blue enamel bearing crossed swords in gold, within a gold circle, and the inscription Reward of Valour, the whole being surmounted by two wreaths of laurel in gold. The Second Class star is of silver, with the wreaths of laurel in gold, and the Third Class entirely of silver. The decoration is suspended from a simple loop and bar from a dark blue ribbon 1½ in in width with red edges, bearing a gold or silver buckle according to class.

**Order of British India.**—This order was instituted at the same time as the Order of Merit, to reward native commissioned officers for long and faithful service in the Indian Army. Since 1878, however, any person, European or native, holding a commission in a native regiment, became eligible for admission to the Order without reference to creed or colour. The First Class consists of a gold eight pointed radiated star 1½ in in diameter. The centre is occupied by a lion *statant gardant* upon a ground of light-blue enamel, within a dark blue band inscribed Order of British India, and encircled by two laurel wreaths of gold. A gold loop and ring are attached to the crown

for suspension from a broad ornamental band  $\frac{3}{8}$  in in diameter, through which the ribbon, once blue, now red, is passed for suspension from the neck. The Second Class is  $1\frac{1}{2}$  in in diameter with dark blue enamelled centre there is no crown on this class, and the suspender is formed of an ornamental gold loop. The reverse is plain in both classes. The First Class carries with it the title Sirdar Bahadur, and an additional allowance of two rupees a day and the Second the title of Bahadur, and an extra allowance of one rupee per day.

**Indian Meritorious Service Medal**—This was instituted on July 27th, 1888, and on receipt of the medal the order states "a non-commissioned officer must surrender his Long

Service and Good Conduct medal" but on being promoted to a commission he may retain the M S medal, but the annuity attached to it will cease. On the obverse is the diademed bust of Queen Victoria facing left, with a veil falling over the crown behind, encircled by the legend Victoria Kaisar i Hind. On the reverse is a wreath of lotus leaves enclosing a wreath or palm tied at the base, having a star beneath between the two wreaths is the inscription for meritorious service. Within the palm wreath is the word India. The medal,  $1\frac{1}{2}$  in in diameter, is suspended from a scroll by means of a red ribbon  $1\frac{1}{2}$  in wide. The medals issued during the reigns of Queen Victoria's successors bear on the obverse their bust in profile with the legend altered to EDWARDVS or GEORGIVS

### THE KAISAR-I-HIND MEDAL

This decoration was instituted in 1900, the preamble to the Royal Warrant—which was amended in 1901, 1912 and in 1933—being as follows.—"Whereas We, taking into Our Royal consideration that there do not exist adequate means whereby We can reward important and useful services rendered to Us in Our Indian Empire in the advancement of the public interests of Our said Empire, and taking also into consideration the expediency of distinguishing such services by some mark of Our Royal favour. Now for the purpose of attaining an end so desirable as that of thus distinguishing such services aforesaid, We have instituted and created, and by these presents for Us, Our Heirs, and Successors, do institute and create a new Decoration." The decoration is styled "The Kaisar-i-Hind Medal for Public Service in India" and consists of three classes. The Medal is an oval shaped Badge or Decoration—in gold for the First Class, silver for the Second Class and in bronze for the Third Class—with the Royal Cypher on one side and on the reverse the words "Kaisar-i-Hind for Public Service in India". It is suspended on the left breast by a dark blue ribbon.

**LINLITHGOW, HER EXCELLENCY THE MARQUESS OF** is a daughter of the late Sir Frederick Milner, Baronet and married His Excellency the Marquess of Linlithgow in 1911.

Her Excellency inherited her interest in all forms of charitable work for the welfare of the community from her father who spent many years of his life in helping those in distress, and who was affectionately known as the Soldiers' Friend owing to his efforts on behalf of disabled ex-Servicemen after the Great War 1914 1918. Her Excellency is particularly interested in Tuberculosis and has been— and still is— connected with the wonderful work done at the Papworth Village Settlement for the Tubercular in England (founded by her father, Sir Frederick Milner). Her Excellency is a well known and popular hostess in London during the season but she prefers a country life and is never happier than when staying at her beautiful home in Scotland Hopetoun House, on the banks of the River Forth. Her Excellency has many interests and excels at most games. She is also a keen gardener and has a considerable knowledge of all forms of plant life.

# BOMBAY

By SAMUEL T SHEPPARD

ACCORDING to the preface, this book is "only a nibble at a few chapters" of the history of the City of Bombay, "made for the benefit of the many people who want to know something about Bombay but who cannot find any book to satisfy their desire"

He deals with the early history of the Island, why it was ceded by the Portuguese and how the East India Company got it, with reclamation from the early British days to modern times (a chapter which contains much from the India Office records that has never been published before), and with defence, industries and trade, the growth of the town, population, religion and learning, and social diversions

\* \* \*

"Perhaps wisely the volume before us says little or nothing about politics. But it does convey a sense of the tremendous energy and enterprise that has gone to the gradual building up of the life of the great communities of India"—*The Statesman*

The book contains 24 full page illustrations

Shrimant Rajasaheb is alive to the rapid progress going on in the civilized world. A Legislative Assembly was established in the State in 1924. Its strength consists of 26 members with a predominating popular element. A notable feature of the Assembly is that it includes one female member.

By the Aundh State Act passed in 1931, a Darbar has been formed to run the administration. It is a miniature Executive council and consists of the Dewan of Aundh and a Minister appointed from the elected members of the Legislative Assembly. The Rajasaheb takes considerable interest in Rural Uplift and is making vigorous efforts in that direction. He is utilizing the knowledge and experience gained from his recent visit to Europe in solving rural and agricultural problems.

Shrimant Rajasaheb is a keen student of drawing and painting and has edited Pictorial Verul, Pictorial Ajanta, Pictorial Ramayana and the Life of Shivaji in three picture volumes. He also takes great interest in physical culture and has written in English a book on the subject called "Surya Namaskars," which has become very popular throughout India and abroad.

The State possesses an independent High Court. Most of the villages have Village Panchayats.

His Highness was married to

His Highness the Maharaja  
Thakore Sahib is a Jadeja Rajput.  
The early founder of the State  
Kumbhoji I had a modest estate

of 20 villages. Kumbhoji II the most powerful chief of the  
house widened the territories to their present limit by conquest  
but it was left to the present enlightened and able ruler to develop  
its resources to the utmost and on account of its importance  
and advanced administration it earned the position of a first class  
state. Gondal has always been pre-eminent amongst the States of  
its class for the vigour with which public works have been prosecuted  
and was one of the earliest pioneers of Railway enterprise in Kathiawar.  
There are no export or import duties, the people being free from taxes  
and dues. Comparatively speaking Gondal stands first in Kathiawar  
in respect of education. Compulsory female education has been  
ordered by His Highness. Rs 50 lakhs have been spent on irrigation  
tanks and canals, water supply and electricity to the towns of Gondal  
which is the capital of the State and to Dhoraji and Upleta.

There is Telephone communication throughout the State and a net

He attained his diploma standing first in the list of candidates from all the Chiefs' Colleges in India and was awarded His Excellency the Viceroy's medal. He won every class prize from the fifth to the diploma, five prizes for English and eleven others for various subjects. For several years he was captain of one or other of the junior football or cricket elevens and he was one of the best and keenest polo players in the college.

He was therefore well qualified to take up his responsibilities as Ruler of His State when he ascended the *Gadi* of Idar. The Jaisalmer State is a sovereign State in Rajputana. The Ruling House is the acknowledged head of the Lunar Race and the Rulers of Jaisalmer are the direct lineal descendants of Lord Shri Krishna. One of the most venerable and prized heir-looms of the House of Jaisalmer is the "Megha

dambar'—the Regal Umbrella made by Vishwakarma—which was used by Lord Shri Krishna on State occasions. The eight-metalled umbrella which surmounts the palace of Jaisalmer towering high above the venerable walls of the historic hill-fort is emblematic of the "Meghadambar" and is indicative of the proud position which the House of Jaisalmer occupies in India as the head of the Lunar Race and its off-shoots. The Rulers of Jaisalmer are, therefore, styled as "Chhatrala Yadavapati"—the canopied Lords of the Yadavas. There is hardly any Ruling House in India with the only exception of Udaipur that can claim to be founded earlier than Jaisalmer. In the time of Maharawal Amar Singh (1661-1702) the Jaisalmer State was at the zenith of its power and glory and commanded an area of over 100 000 square miles. Its territory extended North to the Sutlej, comprising the whole of the Bahawalpur State, westward to the Indus including Sukkur, Bhukkur, Rohri, &c., in Sind, to the East and South included many districts such as Pugal (now in Bikaner), Pokaran, Barmer, Girab and Phalodi (now in Jodhpur). It was because of this vast territory that the Rulers of Jaisalmer were styled as 'Pashchimdhara Badshah', i.e., "the King of the Western lands". The State still commands an area of about 16,062 square miles and is the third largest State in Rajputana and eighth largest State in India including Kalat. During the reign of Maharawal Mulraj this State entered into Political Relationship, with the British Government by a Treaty of "Perpetual Friendship Alliance and Unity of Interests" in 1818. The Jaisalmer State has never paid any tribute to any power.

The history of its Ruling family goes back into hoary antiquity and numerous copper plate grants and archaeological finds testify to its powerful sway, and to the vast domains that constituted the territory of the Bhanja Kings, for hundreds of years. Its geographical and strategic position constituted it an important buffer State at the time when the East India Company and the Mahrathas were engaged in a struggle for supremacy in Eastern India and Mayurbhanj assisted the British cause. During the Mutiny of 1857, the Ruler of Mayurbhanj again distinguished himself as a loyal ally of the East India Company. The State is administered very much on British Indian lines, judicial independence, which has been secured under a full powered High Court, being a special feature of its administration. Partabgarh State, also called the Kanthal, was founded in the sixteenth century by a descendant of Rana Mokai of Mewar

The town of Partabgarh was founded in 1698 by Partabsingh. In the time of Jaswant Singh (1775-1844) the country was overrun by the Marathas, and the Maharawat only saved his State by agreeing to pay Holkar

a tribute of Salim Shahi Rs 72,700 (which then being coined in the State Mint was legal tender throughout the surrounding Native States), in lieu of Rs 15,000 formerly paid to Delhi. The first connection of the State with the British Government was formed in 1804, but the treaty then entered into was subsequently cancelled by Lord Cornwallis and a fresh treaty was made in 1818. The tribute used to be paid to Holkar, is being paid to the British Government under the terms of the treaty of Mandsaur and was, in 1904, converted to Rs 36,350 British Currency. The State enjoys plenary jurisdiction. The highest administrative and executive office is termed "Mahakma-Khas" where sit His Highness and the Dewan of the State. SANDUR is the only Mahratta State in South India in direct political relations with the Government of India. It is bounded on all sides by the British District of Bellary except the South where its frontier touches that of Mysore. The Ruling House of Sandur is known by the family name of "GOOTYKFR GHORPADE". This State was conquered in early eighteenth century by Raja Siddoji Rao Ghorpade. His son Raja Morar Rao Ghorpade is renowned in history as the famous "CHIEF OF GOOTY," and held sway over the Mahratta possessions South of Coleroon. During the time of Raja Morar Rao Ghorpade, the State reached the zenith of its territorial expansion. In the Carnatic and Mysore Wars in which the East India Company were engaged in the middle of the eighteenth century, Morar Rao, as the staunchest ally of the British, rendered valuable assistance to the British from time to time notably in the famous siege of Arcot and Trichinopoly and also against Hyder in 1769.

This family was held in high esteem by the British and included in the Treaty of 1782 with Mysore, by which the British Government reserved to themselves the liberty to reinstate Morar Rao's family in the Country of Gooty, which Hyder had seized during the time of Morar Rao who died in 1776. The present extent of the State is but a corner of the country of Gooty, which was reconquered in 1790 by Venkatrao on behalf of Siddoji, the grandson of Morar Rao from Tipu Sultan.

The Peshwa who had for long coveted very much the conquest of Sandur prevailed on the East India Company to demand the surrender of Sandur in 1817 on the pretence that the Ruler of Sandur was one of his refractory vassals, whom the East India Company were

bound by the Treaty of Bassein (1817) to reduce. But when it was noticed that the Ruler of Sandur was never a vassal of the Peshwa, but that he was an "independent Prince before the Treaty of Bassein, his former territory was restored to him in 1818 on the only condition that there should be free passage to British troops and surrender of offenders from the British territory, and that there should be no interference whatever with the internal administration of the State. These relations continue to the present day. The State possesses powers of life and death and is unfettered in the exercise of

from all pecuniary demands.

The Ruler is the fountain-head of all authority, Judicial Administrative and Legislative. The Government of the State is conducted

by an Executive Council. To help the Government a State Council has been constituted in 1931 with a predominant non-official majority possessing the right to initiate legislation, to move Resolutions and ask questions. A Chief Court has been constituted under the Sandur Chief Court Act (II of 1932) and arrangements have been made with the Madras Government whereby the District and Sessions Judge, Ex officio, Bellary is appointed

Educated in the Rajkumar College, Rajkot, and was associated with the Government Administration of the State for more than a year preparatory to his being invested with full powers. He is an intelligent Prince who keenly supervises the administration of the State. During his regime many improvements have been made and the State is making good progress. The revenue of the State increased—Its lands have been surveyed and regular settlement introduced—Provision for English education made for the first time and Primary and Secondary education made free throughout the State—Election system sanctioned for Municipality—

Free medical relief extended by opening new dispensaries in the district. Many other improvements have been introduced during his regime such as founding of a permanent Relief Fund, granting of liberal tagavi loans to the agriculturists during the time of scarcity. Other improvements of utility such as installation of electricity in the towns of Sant and Rampur, clock tower, public gardens, metalled roads in parts have also been made. The regime of Maharana Shri Jorawarsinhji has been anything but a bed of roses. **LT -COL** HIS HIGHNESS **SIR AMAR PARKASH BAHADUR KCSI, KCIE**, the late Maharaja of Sirmoor State died in Vienna on the 13th August 1933 after a brilliant and successful reign of more than 21 years. His sad and sorrowful demise was naturally a heavy shock and deprived his son, His Highness Maharaja Rajendra Parkash Bahadur, of the solicitous and affectionate care of his father and placed the heavy and responsible burden of the administration of the State on his shoulders while

still in the early years of his life

His Highness the present Maharaja was born on the 10th January 1913. He was carefully educated during the lifetime of his father who took special interest in the upbringing of his son. During his father's absence in Europe when the administration of the State was placed in the hands of a council he gained practical training in and immense knowledge of the administration and thereby equipped himself well for undertaking the responsibilities of his high office. Although it was before the due time, in recognition of his ruling merits and abilities the Maharaja was installed to his ancestral *Gadi* by the Hon ble Sir J. A. O. Fitz Patrick, KCIE, CBE, ICS, Agent to the Governor General, Punjab States in November 1933.

The young prince is a good scholar in English and has a store of wisdom far beyond his years. Besides being hard working he is energetic, intelligent and a keen sportsman. He possesses very refined tastes, a sympathetic heart and is a lover of justice. As the Chief Justice of the State High Court he considers it his solemn obligation to dispense evenhanded justice with scrupulous care. Ever since his assumption of the role of Government he has administered the State with conspicuous ability, without sparing any pains to promote the interests of his State and subjects. He is always anxious to explore new avenues and examine fresh channels which might serve to raise the moral and material status of his people and country.

The revival of the agricultural and industrial exhibition is a happy indication of the deep and enduring interest His Highness takes in promoting the agricultural and industrial interests of his subjects. The inaugural ceremony of the exhibition was performed by His Highness the Maharaja on the auspicious occasion of his Raj Tilak which

was celebrated in February 1935. A similar exhibition was being run on organised lines during the regime of His late Highness Maharaja Sir Surendra Bikram Parkash Bahadur KCSI and continued successfully during the reign of H H the late Maharaja Sir Amat Parkash Bahadur, KCSI, KCIL, but it had suffered a set back in the year 1914 owing to the outbreak of the Great War and also due to the unfavourable agricultural conditions then obtaining. The measure taken by the present Maharaja in reviving the exhibition is sure to pave the way to commercial development of the State and will prove a success under the patronage of His Highness to whose munificence it owes its origin.

Another event which marks His Highness' accession to his ancestral *Gadi* is the grant of certain concessions to his subjects which include (1) remission of land revenue and forest outstandings up to the year 1932

(2) remission in the term of imprisonment of State convicts

(3) grants in aid for meeting the educational needs of the people

(4) provision of a gymnasium for use of the public, (5) introduction of

*panchayat* system, etc., etc

general happiness and welfare of his people. His sterling and outstanding qualities of head and heart have won for him the affection of his faithful and loyal people.

*The State Crest & Coat of Arms*

He is accessible to all and is fond of undertaking extensive tours with a view to studying the conditions of his people and keeping himself informed of the march of events in the State. He takes a keen personal interest in all that conduces to the

in all that conduces to the

In fact the young Maharaja during the short period that has passed since his investiture with full ruling powers has proved himself to be a very promising and an enlightened Ruler and gives bright promise of proving himself a worthy successor of his illustrious father.

In almost all the localities of Ahmedabad, he commemorated the names of Madhowlal and Ranchhodlal in one way or the other, and his patronage to education and learning was proverbial, being himself a good scholar of Sanskrit. He also donated a substantial sum to maintain a chair of Banking in the Sydenham College of Commerce, Bombay. In recognition of his public services and charitable disposition, a Baronetcy was conferred on him in 1913 by the British Government. The present Sir Chinubhai inherited the estates and title after the death of his father in 1916, with all the good traditions of his father and grand father. He owns a leading firm of cotton business in Bombay and a big group of gineries in East Africa over and above his ancestral estates in Ahmedabad. He is also developing new industries in mining. Power and who laid down the  
tradition for charity and

Maharaja Sir Kishun Pershad

**K**UREISHY RAFIUSHAN  
 IFTIKHARUL MULK KHAN  
 BAHADUR LT-COL HAJI  
 MAQBOOL HASSAN, MA, LLB  
 Minister for Law and Justice,  
 Bahawalpur Government belongs  
 to a respectable family of the  
 Kureish of Arabia. Though hailing  
 originally from the Meerut District  
 his ancestors had long settled in  
 the State before he was born at  
 Bahawalpur in 1900. He received  
 his early education in the State  
 and later on joined the Muslim  
 University, Aligarh where he pass-  
 ed his MA, LLB in 1925. From  
 his earliest childhood he exhibited  
 traits which gave promise of his  
 future career.

His personal magnetism made itself felt in the sphere of his employ-  
 ment where he won the golden opinions of his colleagues as well as  
 the ruler under whom he served. He began his career in 1925 when  
 he joined the personal staff of His Highness the Nawab Ruler Bahadur  
 of Bahawalpur as an Aide de Camp. But it did not take long to dis-  
 cover that the young incumbent had in him the makings of a capable  
 administrator. Accordingly in 1927 he was promoted to the rank  
 of Assistant Military Secretary. But this was only a stepping stone,  
 as in January 1930 he was given the combined office of Private  
 and Military Secretary, with the additional charge of the portfolios  
 of Education and Municipalities and was subsequently raised to the  
 status of Minister-in-Waiting.

In 1932 he paid a visit to England and other Western countries  
 in company with His Highness the Nawab Ruler Bahadur—a visit  
 which he repeated again in 1935 and in 1936. The beautiful volume  
 in which he has chronicled the impressions of his first itinerary is an  
 eloquent testimony of his great powers of observation and expression.  
 He has also been to the Near East and performed the holy pilgrimage.

Recently, his services to the State have been recognised by the  
 Government by the grant of the title of Khan Bahadur which is the  
 first distinction of its kind to be conferred upon a purely Riyasti  
 Vizier in the State. He is also the recipient of many decorations and  
 distinctions from the State and is a member of the Court of Muslim  
 University, Aligarh and His Highness the Nawab Ruler Bahadur's  
 representative in the Senate of the Punjab University.

During the 8 years of his incumbency he has introduced many  
 useful administrative reforms in the departments under his control,

**M**OHUDDIN FAROQUI, NAWAB SIR, the only son of Kazi RAYAZUDDIN MUHAMMAD FAROQUI was born in the year 1891 and belongs to one of the few historic families of Bengal. He is the eleventh in descent from Kazi Omar Shah Farouqi, a lineal descendant of Hazrat Omar Farouqi, the second Khalif of Arabia, who migrated to India and settled at Delhi. He was sent out to Bengal as a military commander by Emperor Furrokhshiar and in recognition of his meritorious services was given the grant of extensive Jaghir (rent-free land) of two parganas in the district of Tippera in Bengal and the original Sanad conferring the Jaghri by

Emperor Furrokhshiar is still in the possession of Nawab Sir Mohiuddin.

Nawab Sir Mohiuddin was educated at the Dacca College under the guardianship of Mr Archibald, the Principal of the College. Even from a comparatively early age he developed a spirit of public service and a love for public life.

He was the first non official Chairman of the Tippera District Board, a Commissioner of the Comilla Municipality, Member of the Assam Bengal Railway Advisory Board, Member of the Dacca University Court, an Honorary Magistrate and a Member of the Governing Body of the Comilla College for several years before he entered the arena of politics. As the Chairman of the District Board he took a very active interest in the matter of communications and the results of his endeavours in this direction may now be seen in the improved roads and well-built bridges widely spread over the district. The Comilla Water Works and the Electric Supply which have done inestimable benefit to the town came into existence largely, if not absolutely, owing to the untiring efforts of the Nawab Sahib. A service of immense value that he did, while in the District Board was the provision of rural water supply by boring tube-wells. He encouraged the spread of education higher and primary in his district and it was he who was instrumental in raising the Comilla Victoria College from the second-grade to the first-grade institution that it is to-day.

He has been a member of the Bengal Legislative Council since the introduction of the Montagu-Chelmsford Reforms and was the non-official Chief Whip of the Council till he was appointed in 1929 Minister to the Government of Bengal in charge of Agriculture, Industries Co-operation, Veterinary Department and Public Works. It is a matter of no little honour and distinction that he was elected by the Bengal

Legislative Council to represent the Province in the Provincial Simon Committee where his services were acknowledged with great appreciation by the Rt Hon ble Sir John Simon. Nawab Sir Mohiuddin is the Leader of the House in the Council and this is perhaps the only and the first instance in the history of Provincial Councils that a Minister (who was returned as an elected member) has been made the Leader. The services that he has given as the Leader of the House to the country and the Government are worthy of his trained sagacity, mature experience and wide knowledge of men and matters.

As a Minister to the Government Nawab Sir Mohiuddin has given effect to a considerable number of measures which have already had, or are likely to have in future, far reaching results in improving the conditions of agriculture and industry of the Province. He introduced and successfully piloted the State Aid to Industries Act, a measure of great promise and usefulness, inasmuch as it affords an opportunity to small and nascent industries to grow up with aid, as far as possible from the Government. His scheme for the relief of unemployment amongst educated middle-class young men is of great significance and is the first of its kind since the inauguration of the Reforms intended to open up new avenues of employment through industrial development of the Province. The United Provinces Unemployment Committee presided over by the Rt Hon ble Sir Tej Bahadur Sapru, P.C., K.C.S.I., I.L.D., has in its report many words of praise for the scheme. He took steps to establish Co-operative and Mortgage Banks for the relief of agricultural indebtedness and his scheme for restriction in the cultivation of jute with a view to fetch a better income to the cultivators has been a measure of immense benefit. He made serious endeavours to improve the animal husbandry of the Province and significant results are already available of the various agricultural researches taken up at his instance. The scheme for the training of detenus (persons detained for political reasons) in industrial and agricultural pursuits in order to afford them an opportunity to prove themselves useful citizens is now having a trial and its results are awaited with interest all over India. Nawab Sahab was the author of the Water Hyacinth Act which provided for removal of the water hyacinth pests from the province with organised effort. As a result many districts in Bengal are now entirely free from this pest. To give cheap credit facilities to commercial people an Industrial Credit Corporation Bank has been established with ten lakhs guarantee against loss by Government. The Daulatpur Agricultural College has been established for agricultural education and is the only one of its kind in the Province.

He enjoys the confidence of all sections of the people in the Province. In recognition of his meritorious services and activities he was honoured with the title of 'Khan Bahadur' in 1924 with that of "Nawab" in 1932. On the New Year's day 1936 His Majesty late the King Emperor conferred on him a Knighthood, a distinction which he richly deserved.

He married Quatrana Sultana Zobeida, eldest daughter of the Hon'ble Alhadj Nawab Bahadur Sir Abdelkerim Ghuznavi, Kt., of Dilduar, Ex-Member of the Executive Council, Government of Bengal.

**M**YMENSINGH ESTATE MAHARAJA SHOSHI KANTA ACHARYYA CHAUDHURY of Mymensingh one of the Chief Noblemen of the Presidency of Bengal was born at Muktagacha in Mymensingh on the 24th February 1886. He was the son of the late Maharaja Surja Kanta Acharyya Bahadur an illustrious Zamindar of Mymensingh well known for his many-sided public activities in the province of Bengal especially for the bold and courageous stand he took in unsettling the settled fact of the partition of Bengal. Under the nursing care of his illustrious father Shoshi Kanta received his early education with great care and keen solitude. He was educated at the St. Xavier's College, the Doveton College and the Presidency College, Calcutta. He passed the Entrance examination in the year 1904. He went to England for higher education in the year 1907 and joined Downing College, Cambridge. He successfully passed the

Little-go and Additional Examinations and was preparing for the B.A. & L.I.B. degrees and also joined Gray's Inn, to qualify for the Bar, but he had most reluctantly, to give up his much-coveted studies in England and hurry back home on account of the sudden death of his father and to shoulder the responsibilities of his extensive estates.

Shoshi Kanta inherited from his father a noble and benevolent disposition and high ideal of public spirit. Though a young man just above his teens he began to take lively interest in higher education in his own district and his first act of public benevolence was his princely donation of Rs. 45,000 in the year 1909 to the Ananda Mohan College, Mymensingh, which in later days he supplemented by further donations for the establishment of I.Sc. Class in the same College. His contribution of 1,00,000 rupees in the year 1910 towards the Edward Memorial Fund for the improvement of Mitford Hospital at Dacca deserves particular mention, the cause of Amelioration of suffering humanity is innate in his nature. In 1920 when the Mymensingh Hospital required further extension, Shoshi Kanta made a free gift of land worth about Rs. 30,000 for his new site and contributed 1,00,000 rupees to the Hospital Fund to name it after his illustrious father. He has further equipped the hospital with an X-Ray apparatus at a cost of Rs. 38,000 and has granted an annual subscription of Rs. 1,000 for the upkeep of the hospital. He further gladly made over to the Hospital a sum of Rs. 17,000 received from the Government for value of his lands occupied by the old hospital and now acquired for Kotwali Thana. In 1910, he contributed Rs. 1,000 towards the cost of the construction of the new Ripon College building Calcutta. The Maharaja contributed Rs. 2,000 to the Madras famine fund. The devastating flood of Damodar in 1913, moved Shoshi Kanta's heart and he readily contributed Rs. 1,000 for relief work. During the great war in 1914 he contributed Rs. 60,000 for the purchase of a fleet of six Ambulance Motor cars for the Red Cross Society and paid Rs. 40,000 towards the various war relief and ambulance corps funds. He subscribed to the Indian War loan to the extent of 1,00,000 rupees. He has also contributed Rs. 2,250 and Rs. 1,500 to the Silver Jubilee Fund and King George Memorial Fund respectively.

Maharaja Shoshi Kanta filled a long felt want in Mymensingh town by establishing at a considerable cost the Carmichael Club where Europeans and Indians officials and non-officials, have an opportunity to meet. It was mainly due to his efforts that electricity is available at Mymensingh. Besides these acts of benevolence, the Maharaja has granted

monthly stipends to many deserving students and has undertaken to defray foreign education of some of them. Many public and charitable institutions and bodies are regularly receiving his contributions and his purse is always open for all deserving causes.

Shoshi Kanta entered public life in the year 1912 when he was only 26. On the formation of the Presidency of Bengal he was elected by the land holders of the Dacca Division to represent their interests in the Bengal Legislative Council. When the Reforms were inaugurated in 1921 Maharaja was nominated by the Governor General a member of the Council of State. In 1927 Maharaja entered the reformed Bengal Legislative Council as an elected representative of the Dacca University graduates. His career in the legislatures is marked by his outspoken advocacy for popular cause in principle. Being in Council he was a real asset to his community and his persistent zeal and unflinching devotion to their cause were amply demonstrated when he took a keen interest in the moulding of the Bengal Tenancy Act in 1927 to the satisfaction of landlords and tenants alike. He has been elected to the Bengal Legislative Assembly from the Dacca Landholders' Constituency recently.

Among his other public activities Maharaja Shoshi Kanta was unanimously elected Chairman of the Mymensingh Municipality in 1918 and transacted all its business with conspicuous efficiency till 1921. He also was elected Chairman of Muktagacha Municipality his native place in 1912. He is also connected with various public bodies. He acted as President of the East Bengal Landholders' Association for several years and is the President of the Mymensingh Landholders' Association and the Secretary of the Bengal Landholders' Association.

Maharaja Shoshi Kanta is a liberal Hindu and a great social reformer. He is the President of the Hindu Hita Sidhhi Sava society formed in 1917 for the elevation of depressed classes and for bringing about social and moral regeneration of the Hindus. As soon as the Harijan movement was started by Mahatma Gandhi Maharaja Shoshi Kanta opened his ancestral Kali and Shiva Temples for worship by all classes of Hindus. He is the President of the Mymensingh Hindu Sabha and presided over the deliberation of Mymensingh District Hindu Conference held at Fungul and was the President of All Bengal Hindu Conferences held at Hilli and Canning Town. He has made over his Palatial House at Benares to the Hindu Mission for the uplift of the Hindus. In Mymensingh Town he has recently constructed a beautiful Shiva Temple and has made a free gift of land to the Mymensingh Ram Krishna Pratisthan a social and religious institution of the place.

He is a thorough sportsman and was a very good cricketer in his young days. He was the captain of the Town Club Calcutta for several years. To give incentive to Mymensingh Cricket the Maharaja retained many veteran players to coach the local young men. He is also fond of hunting and a lover of games.

In recognition of his public spirit and munificence His Excellency Lord Hardinge conferred on him the title of Raja Bahadur on the 1st January 1913 at a comparatively young age. Later on in 1920 the title of Maharaja was bestowed on him by Lord Chelmsford in appreciation of his manifold acts of public utility.

Maharaja Shoshi Kanta has married the third daughter of the late lamented Mr Bhojinkish Chakraborty M.A. Bar at Law of Calcutta. He has three sons and three daughters. His youngest son Maharaj Kumar Snehnishu Kanta Acharya who is a graduate of the Calcutta University has proceeded to England for higher studies. All his daughters are married.

Maharaja Shoshi Kanta is remarkable for his simple habits, unimpeachable moral character, charitable disposition and unostentatious manner of living. His high culture, affability and amiability of character are too well known. He is accessible to all from the powerful down to the man of the street, is kind and benevolent to his tenants and officers, modest and a man of his word, always firm and unyielding in matters of public duty, he is a true ideal, the like of which are very few in these days. By a recent circular, the Maharaja has announced that 5 per cent of his annual income should be spent for agricultural improvement and for provision of drinking water to the tenants in the villages.

**N**AWAB KAMAL YAR JUNG BAHADUR, a nobleman of Hyderabad, is a son of the late Nawab Khair Khan. He owns an estate covering an area of about 312 sq miles having a population of 80,000 souls and yielding a revenue of about Rs 6 lakhs annually. The estate is divided into four Talukas which comprise 90 villages.

Few families that came out to India from Persia, have such a brilliant record of service to their credit as the one represented by Nawab Kamal Yar Jung Bahadur. His ancestors were Governors and Generals under Moghul Emperors and Shah Nawaz Khan was Prime Minister of the Deccan after the death of Asaf Jah I. Nawab Kamal Yar Jung Bahadur's father, who was Military Minister, was a brother in law of the late Sir Salar Jung, the famous Prime Minister of Hyderabad and had accompanied the latter on a

political mission to England where he was presented to the Queen Empress and had the honour of dining with Her late Majesty.

Nawab Kamal Yar Jung Bahadur received his education partly in Aligarh and partly at the Nizam College. He married a daughter of his uncle—the late Nawab Ikhbal Mulk II. In order to gain administrative experience the Nawab worked as Assistant Home Secretary, Joint Registrar of the High Court and Inspector General of the Registration Department. His age is 42. The Nawab's favourite subjects of study are history, politics and rural economics. He is a good writer and a convincing debator.

The administration of the estate is conducted on modern and progressive lines. Survey and Settlement Operations have been completed in the entire estate on lines obtaining in the Bombay Presidency. The estate possesses 24 schools, 8 dispensaries, 30 tanks, 117 ponds, 22 canals and 18,000 houses. It maintains a force, 160 strong, costing Rs 25,000 annually. The civil establishment consists of about 700 hands, including village officials, and costs about a lakh annually. On pensions, scholarships and gratuities, the Nawab spends Rs 20,000 every year. All appeals against the Estate's Chief Executive Officer's decisions as regards assessment and Inam enquiries are heard by the Nawab Sahib himself and adjudicated in strict accordance with the principles of law and equity. The Nawab makes extensive tours of his villages, hears all complaints in person and keeps himself well posted with the conditions obtaining there.

The Nawab's loyalty to the Nizam is proverbial. The relation of his house with the Residency has always remained cordial. His father and uncle were recipients of a Guard of Honour on the occasions of their visits to the Honourable the Resident.

Purtval, a village in the Nawab's estate, contains diamond mines. The world famous Koh-i-Noor diamond originally came from the Purtval mines—a reference to which fact is also to be found in Murray's "Handbook for Travellers in India, Burmah and Ceylon."

Deoni, a taluka in his estate, is a well-known cattle market. The fort of Ramgur, a relic of the ancient Andhra Kingdom, is also one of his proud possessions and the Nawab is taking all possible steps to preserve it in its pristine glory.

The Nawab is fond of riding, rowing and reading. His Shameerpet Lake, about 18 miles from Secunderabad, is an attraction for excursionists.

**N**AWAB ZOOLCADER JUNG BAHADUR, M A (Cantab), Bar-at-Law, Middle Temple, Secretary to the Nizam's Government in the Judicial, Police, Education and General departments, traces his descent to Ameer Taimur known in English History as "Tamerlane". His great grand father, Mirza Jeevan Beg entered India in the early years of the nineteenth century. His grandfather Mirza Mogul Beg married a niece of the Emperor Akbar Shah, the Second Nawab Zoolcader Jung was thus related to the Imperial family of Delhi. His father Nawab Aga Mirza Beg Server-ul Mulk Bahadur came to Hyderabad in 1872 and was placed in charge of His late Highness the Nizam Mir Mahbub Ali Khan's education. He later served with great distinction as Chief Secretary to the Nizam and left his permanent mark in the Constitutional History of modern Hyderabad by framing the famous and probably the first Constitution of the State known as 'Qanuncha Mubarak'.

Nawab Zoolcader Jung was born in 1875. After receiving his education successively at the Madras College Aiza St George's Grammar School Hyderabad and the Scottish High School Bombay he passed his Matriculation from the Madras University in 1893. His late Highness the Nizam sent him to England as a special State Scholar where he joined Christ's College Cambridge. He passed his Bar Examination Middle Temple Degree in 1899. On his return, he was appointed 3rd City Magistrate and then after being successively made the Second and the Chief City Magistrate he was elevated to the High Court Bench in 1907. He retired from service in August 1915. On the 13th June 1921 the Nizam graciously recalled him to Hyderabad and appointed him to the present post.

After a temporary retirement from active service in 1929 he was again recalled to this post in 1933 in recognition of his loyal and meritorious services to his august master and the State. There is no doubt his name will be ever associated with the rapid expansion of public instruction in modern Hyderabad as well as with the remarkable progress that the Postal, Archaeological and other Departments have made under his competent supervision. As a scholar endowed with literary talents he has contributed an interesting study on Machiavelli, while his History on medieval Spain in Urdu is regarded by critics as a work of permanent merit on the subject. Some of his addresses to academic assemblies have also considerable literary value and were generally very favourably received by Educationists.

## The Calendars.

A full Calendar will be found at the beginning of this book. Below are given details of the other Calendars in use in India.

The *Jewish* Calendar is in accordance with the system arranged A.D. 358. The Calendar dates from the Creation, which is fixed as 3,760 years and 3 months before the beginning of the Christian Era, the year is Luni solar.

The *Mohammedan*, or era of the Hejira, dates from the day after Mahomet's flight from Mecca, which occurred on the night of July 15 622 A.D. The months are Lunar.

The *Fash* year was derived from a combination of the Hejira and Samvat years by the order of Akbar, it is Luni solar. The *Bengal* year seems also to have been related at one time to the Hejira, but the fact of its being Solar made it lose 11 days each year.

The *Samvat* era dates from 57 B.C., and is Luni solar. The months are divided into two fortnights—*sudi*, or bright, and *badi*, or dark. Each fortnight contains 15 tithis, which furnish the dates of the civil days given in our calendars.

**“A Ha’p’Orth of Tar”**

Many’s the good ship that’s been spoiled  
for want of a ha’p’orth of tar And  
many’s the promising business that  
has failed or never flourished  
due to false economy over print Print  
is the voice of business If it is cheap  
and shoddy, it finds an early grave in  
the waste-paper basket If, on the other  
hand, it is produced by *The Times  
of India Press*, Bombay (where quality  
goes hand in hand with economy) it  
will sell your goods or services as  
successfully as only good print can do
